**Here's the industry question
of the day –
'Is a check an image, an RCC,
an ACH or just a check?'**

Today, more than ever before, individuals who work with checks need to understand the "New Payment Delivery System" that incorporates existing checks, images and ACH.

UMACHA, in conjunction with WACHA is pleased to announce the new **Check Professional Certificate Program**.

Individuals who earn their Check Professional Certificate (CPC) are recognized as valuable assets to the financial industry because they understand the regulations governing checks, images, check conversion and Remotely Created Checks (RCC).

UMACHA's Check Professional Certificate Program . . .

- Is taught by Payment Professionals who provide you with the most up-to-date materials and information
- Will help you increase your check knowledge and your value to your financial institution
- Will prepare you for and help you pass the CPC exam (testing window Nov. 18 – Dec. 3, 2010)
